iAdaptAir® Quick Start Guide

Wi-Fi Functionality using the Control Panel

Viewing Wi-Fi Status

1. Press Smart Mode button once at standby (power plugged-in but not operating). It will show the status of the Wi-Fi connection.
Green Flashing Happy Face = not connected
Solid Green Happy Face = connected
Red Frowning Face = Wi-Fi turned off
2. Hold the button for more than 3 sec., it will reset the Wi-Fi network name and password.
3. The status will show for 1 min. and then return to normal automatically.

Important: Don't reset the device by step 2 if device is still registered in the app. You will need to delete the device from app before restarting.

Turn Wi-Fi On/Off

Hold Fan Speed button for 3 sec. in standby mode. (The unit is in standby mode when it's plugged in, but not turned on) The Wi-Fi will turn off. The Wi-Fi status will be shown by the red & green LED for one min. Unplug the unit for 5 seconds and the Wi-Fi will automatically restart after the unit is plugged back in.

Best practices for extending filter life

Don't use the air purifier more hours than needed.

Keep your unit on smart mode.

Always use the timers.

Use the scheduler in the app.
